Abstract

There are many crimes among other things is violence in family surrounding. Specific character of this crime needs a specific regulation. Government has made Undang-undang number 23/2004 about Penghapusan Kekerasan dalam Rumah Tangga. This research wants to know how to solve violences in family surrounding after Undang-undang number 23/2004 is made. And what problems that found. This is normative research that based on regulation. This research shows that Undang-undang number 23/2004 is implemented well but sometimes the law enforcement officer is discriminated to the doer and the victim. Beside that, there are many problems found in implementing Undang-undang number 23/2004 to violence in family surrounding.
